Input 3
Who should I reach if my leave request is delayed?
Output 3
If your leave request is delayed, here are the best steps to take:

1. **Check with your reporting manager:** In most cases, leave approvals first require your immediate supervisor's review, so a quick follow-up message or email to them is usually the fastest way to get it moving.
2. **Contact HR directly:** If your manager is unavailable or you still haven't received an update, reach out to the HR team at **hr@adlogistics.com**. Be sure to include your employee ID, the leave dates requested, and the leave type so they can look into it right away.
